Introduction

Software developer specialized in building scalable, responsive, and interactive applications with React, Vue.js, and Next.js. Experienced in GitHub workflows, CI/CD pipelines, and agile methodologies. Strong collaboration, communication, and problem-solving skills, with proven adaptability and continuous learning mindset.

Technical Skills

Frontend: HTML, CSS, JavaScript, jQuery, React, Vue.js, Next.js, Bootstrap. **Backend:** Laravel, NestJS, REST APIs. **Databases:** PostgreSQL, Oracle. **Version Control & DevOps:** Git, GitHub (branch workflows, pull requests), CI/CD (GitHub Actions), Docker, Kubernetes. **Testing:** Unit Testing, Jest, Cypress. **Design:** Figma, UX/UI principles, Responsive Design. **Methodologies:** Agile (Scrum, Kanban). **Cloud:** AWS basics.

Work Experience

Software Developer, IVI SpA – Santiago, Chile

Nov 2023 – Present

- Developed and deployed an order and product unifier using Next.js, improving data consistency and reducing manual processing by 25%.
- Implemented CI/CD pipelines with GitHub Actions, cutting deployment time from 1h to 10min.
- Introduced Docker for local development, ensuring environment consistency across the team.
- Collaborated in a cross-functional agile team (Kanban), increasing delivery efficiency by 30%.

Projects

LibroLibre – Digital Library Platform (GitHub)

2025

- Built book search and filtering system (title, author, genre) using JavaScript and Bootstrap.
- Implemented responsive UI design and user-friendly experience inspired by modern educational platforms.
- Designed backend mock API with Node.js to simulate real-world interactions.

CineFlash – Movie Reservation System (GitHub)

2025

- Developed booking platform with jQuery and Bootstrap, including interactive modals and star-rating system.
- Integrated simulated payment workflow and reservation confirmation to complete user flow.
- Focused on responsive design to ensure mobile and desktop usability.

Education

Diploma in Programming and Systems Analysis,
Instituto Profesional San Sebastián – Santiago, Chile

2023 – 2025

- Additional training at Universidad Metropolitana de Ciencias de la Educación (UMCE) and Universidad Tecnológica Metropolitana (UTEM).

Languages

Spanish (Native), English (Professional Working Proficiency)

Additional Education

- Fundamentals of Control and Management in Cybersecurity – USACH, Chile (2025)
- UX/UI Design with Figma – SENCE, Chile (2025)
- Agile Methodologies: Scrum – SENCE, Chile (2024)
- Database Design and SQL Programming – Instituto Profesional San Sebastián, Chile (2024)
- Frontend Bootcamp – Vue.js – SENCE / Talento Digital, Chile (2023)
- Full-Stack Development with Next.js – Udemy (2023)
